Giving Voice to Values Apr 12 2020 How can you effectively stand up for your values when pressured by your boss, customers, or shareholders to do the opposite? Drawing on actual business experiences as well as on social science research, Babson College business educator and consultant Mary Gentile challenges the assumptions about business ethics at companies and business schools. She gives business leaders, managers, and students the tools not just to recognize what is right, but also to ensure that the right things happen. The book is inspired by a program Gentile launched at the Aspen Institute with Yale School of Management, and now housed at Babson College, with pilot

programs in over one hundred schools and organizations, including INSEAD and MIT Sloan School of Management. She explains why past attempts at preparing business leaders to act ethically too often failed, arguing that the issue isn't distinguishing what is right or wrong, but knowing how to act on your values despite opposing pressure. Through research-based advice, practical exercises, and scripts for handling a wide range of ethical dilemmas, Gentile empowers business leaders with the skills to voice and act on their values, and align their professional path with their principles. *Giving Voice to Values* is an engaging, innovative, and useful guide that is essential reading for anyone in business.

The Unseen Realm Sep 17 2020 In The Unseen Realm, Dr.

Michael Heiser examines the ancient context of Scripture, explaining how its supernatural worldview can help us grow in our understanding of God. He illuminates intriguing and amazing passages of the Bible that have been hiding in plain sight. You'll find yourself engaged in an enthusiastic pursuit of the truth, resulting in a new appreciation for God's Word. Why wasn't Eve surprised when the serpent spoke to her? How did descendants of the Nephilim survive the flood? Why did Jacob fuse Yahweh and his Angel together in his prayer? Who are the assembly of divine beings that God presides over? In what way do those beings participate in God's decisions? Why do Peter and Jude promote belief in imprisoned spirits? Why does Paul describe evil spirits in terms of geographical rulership? Who are the "glorious ones" that even angels dare not rebuke? After reading this book, you may never read your Bible the same way again.

Endorsements "There is a world referred to in the Scripture that is quite unseen, but also quite present and active. Michael Heiser's *The Unseen Realm* seeks to unmask this world. Heiser shows how important it is to understand this world and appreciate how its contribution helps to make sense of Scripture. The book is clear and well done, treating many ideas and themes that often go unseen themselves. With this book, such themes will no longer be neglected, so read it and discover a new realm for reflection about what Scripture teaches." --Darrell L. Bock, Executive Director for Cultural Engagement, Senior Research Professor of New Testament Studies, Howard G. Hendricks Center for Christian Leadership and Cultural Engagement "'How was it possible that I had never seen that before?' Dr. Heiser's

survey of the complex reality of the supernatural world as the Scriptures portray it covers a subject that is strangely sidestepped. No one is going to agree with everything in his book, but the subject deserves careful study, and so does this book." --John Goldingay, David Allan Hubbard Professor of Old Testament, School of Theology, Fuller Theological Seminary "This is a 'big' book in the best sense of the term. It is big in its scope and in its depth of analysis. Michael Heiser is a scholar who knows Scripture intimately in its ancient cultural context. All--scholars, clergy, and laypeople--who read this profound and accessible book will grow in their understanding of both the Old and New Testaments, particularly as their eyes are opened to the Bible's 'unseen world.'" --Tremper Longman III, Robert H. Gundry Professor of Biblical Studies, Westmont College

Nancy Holt Aug 29 2021 Newly available in paperback, this landmark volume is the definitive study of the work of visionary American artist Nancy Holt (1938–2014). Since the late 1960s, Holt's wide-ranging production has included Land art—particularly the monumental Sun Tunnels (1973–76)—as well as significant projects in sculpture, installation, photography, film, and video. A comprehensive representation of Holt's working process in both word and image, Alena J. Williams's momentous publication illuminates the artist's interest in physical space and reveals how the geographic variety and boundlessness of the American landscape afforded her numerous opportunities to develop large-scale projects beyond the confines of New York City's gallery walls. Contributions by a distinguished group of writers—including Pamela M. Lee, Lucy R. Lippard, Ines Schaber, and Matthew Coolidge—chart Holt's fascinating trajectory from her initial experiments with sound, light, and industrial materials to major site interventions and environmental sculpture. James Meyer's

valuable interview with Holt and Julia Alderson's illustrated chronology expand our knowledge of this groundbreaking artist and the crucial contexts in which she worked. More than twenty original writings by the artist and a rare selection of her concrete poetry, documentary photographs, and preparatory drawings reveal Holt's revolutionary concepts of space, time, optics, and scale.
