Though the word "pandemic" often conjures up an immediate vision of an appalling, acutely lethal and visually terrifying disease, in actuality, these really aren't the infections that we have to worry about when it comes to rapid, global spread. In *Pandemics: What Everyone Needs to Know*, Peter Doherty demystifies the Hollywood version of global infections and considers instead what pandemics really are, what situations encourage their spread, and which pathogens pose the greatest threat today. He also explains the various responses available to combat outbreaks and mitigate their effects, from the use of vaccines and drugs to quarantine. What could possibly go wrong in paradise? Tired of mortgage payments, thirty-something Andrew and Gwynn sold nearly everything they owned but their Siamese cat and escaped their humdrum nine-to-five existence for life in paradise—a tiny

island in one of the remotest spots on Earth: the Okavango Delta in Botswana. Woefully inexperienced, they took control of a luxury game lodge that catered to the likes of French aristocrats, Hollywood directors, Mafia lawyers, and the captain of the England cricket team. Not forgetting the hippos who liked to crash cocktail hour. Trouble soon followed as the reality of running a hotel on an island accessible only by boat or plane burst upon them. Andrew and Gwynn learned it's one thing for guests to wake up with gentle giraffes outside their windows, but it's quite another to keep them safe from poisonous snakes, temperamental elephants, and a hyena with a taste for plastic. All that was child's play compared to figuring out how to feed their guests when a 'quick run' to the grocery store required a plane, a bush pilot, and moderate risk to life, limb, and property. By turns funny, touching, and suspenseful, *Torn Trousers* is a real modern fairytale about getting exactly what you wished for...and then having to live with it.
